Get what you want:

The compact, water-resistant housing of the UCF WP series are JIS class 6 certified. Not only are they durable but they're also rubberised, so they'll prove the ideal of vacation and trip companion – even in bad weather. Multi-coated lens elements, inner focusing and a very short minimum focus distance perfectly attest to the perfectly co-ordinated optical characteristics.

Additionally, the UCF WP binoculars have a built-in tripod socket.

The ideal All-Rounder: The new UCF R series replaces the very successful UCF Q series. Their compact design and the lightweight make them the ideal companion for a variety of uses: for theatre, sport or nature observations. Although they are compact and light they are also robust with durable rubberised body housings. The central focus design and multi-coated lens elements round out the first-class optical characteristics of this series.
