

2UPC-C26

Roll printing pack for UP-CR20L

High quality borderless colour pictures.

Colour print roll media for UP-CR20L printer.

Achieve high quality 15 x 20 cm prints by using 2UPC-C26 self laminating dye sublimation media.

The "SuperCoat 2" lamination protects the images for a very long time (same or even better than traditional photo paper). Not only does this media give you high quality colour reproduction but also allows you to apply different finishes to your prints without having to change the media.
