ADVANTAGES

The best photo camera for shooting expedition

- Weather resistant body with 92 protection seals
- Stainless steel chassis and magnesium alloy body
- Built-in GPS to keep the trails of photos on Google Earth
- Electronic Compass to display the camera's direction on the camera's LCD monitor
- Astrotracer to simplify the tracing and photographing of celestial

Image and video quality

- 24 MP CMOS sensor with AA filter-less
- Advanced anti moire function
- New-generation PENTAX-original shake reduction mechanism to assure more effective camera-shake compensation, with an extra-wide compensation range of as much as 4.5 shutter steps.
- New Pixel Shift Resolution System to deliver super-high-resolution images with far more truthful color reproduction and much finer details, while significantly lowering the level of high-sensitivity noise.
- New 86 000 pixels RGB exposure meter
- Sensitivity up to 51 200 ISO
- Full HD recording with 60/30 fps frame rate, H.264 codec with dedicated button

Fast and accurate

- New AF module SAFOX 11 with 27 AF points (25 cross points)
- Upgraded Tracking accuracy at AF.C
- Continuous shooting 8.3 fps up to 60 JPEG and 23 RAW
- New Imaging Engine Prime III for ultraspeed datas transfer

Ease to use

- 100%, 0,95X Pentaprism View Finder
- 3,2" 1037K LCD monitor with anti reflection and anti scratch coating
- Dual SD card slot

Mobility and connectivity

- Wifi remote control via Smartphones, tablet and computer with dedicated Pentax Flu Card (in option)
- USB 3.0 and HDMI connection
- X-Synchro flash terminal

Stereophone terminal

77.5 mm
