

PENTAX™

Rechargeable Lithium-ion Battery D-LI63

Operating Manual

The rechargeable lithium-ion battery D-LI63 is exclusively for use with PENTAX digital cameras. For digital camera models that can use the battery, please refer to their operating manuals.

Please read this manual and the manuals for "Battery charger D-BC63" and the digital camera before using this product.

For Safe Use

CAUTION

These symbols indicate that it is possible that the user may experience minor or middling personal injuries or material loss if the warnings are not heeded.

 is a symbol indicating items that are prohibited.  is a symbol emphasizing a warning.

CAUTION

-  Do not dispose of the battery by throwing into an open flame, expose to high temperatures, disassemble, modify or short out.
-  Do not short the battery. Contact of metals with the battery contacts can cause the battery to be shorted.
-  If fluid that has leaked from the battery happens to enter the eyes, immediately flush with clean water and seek medical attention.
-  Do not subject the product to strong impacts or allow it to drop onto a hard surface. This can cause a malfunction.
-  When storing or carrying the battery, place it in a plastic bag to prevent shorting.
-  Keep the battery out of the reach of children to prevent accidental ingestion.

Usage Precautions

- Only use the battery charger D-BC63 for charging the battery.
- Be sure to charge the battery when using it for the first time or after not using it for an extended period of time.
- Always keep the battery terminals clean.

Main Specifications

Battery type :	Rechargeable lithium-ion battery
Nominal voltage :	DC 3.7 V
Nominal current :	740mAh
Working temperature :	0 °C - 40 °C
Storage temperature :	-10°C - 45 °C
External dimensions :	39.5 × 31.5 × 6 mm (H/W/T) (1.6" × 1.3" × 0.2")
Weight :	15 g (0.5 oz)

Specifications and appearance are subject to change without notice.
